

Decoding Respect: Everyone Can Code with HTML Hands-on Activities That Teach Respect While Coding a Webpage

By Tamara Zentic

Boys Town Press, United States, 2016. Paperback. Book Condition: New. 278 x 216 mm. Language: English . Brand New Book. Blend STEM into your daily teaching! We live in an age of technology. Our lives are inundated with electronic devices, and career opportunities for those with computer coding skills continue to grow. The computer coding skills in this manual are taught in the HTML format. By the time the 15 lessons are completed, students will have developed all the code necessary to launch their own website. The social skills component emphasizes respecting yourself and others. Each lesson offers three differentiated instruction ideas on how to use the coding instructions for additional academic lessons. Includes a CD with print-ready handouts and instructions.
