Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1917 Excerpt: . . . four fundamental operations. It should be added further that, since each of these sets is a complex, a separate study has been made of the errors occurring in each of the types of operation found in the sets. Thus the study of Set H is divided into two parts, the one concerned with the addition, the other with the subtraction, of fractions of like denominators. The study of Set O is consequently divided into four parts, dealing respectively with addition, subtraction, multiplication, and division of fractions of unlike denominators. FRACTIONS OF LIKE DENOMINATORS One hundred errors made in the addition of fractions of like denominators by eighth-grade pupils were analyzed and thrown into the five categories which appear in Table XXVIII. In dealing with these simple fractions the most frequent error is found to be that indicated by the reproduction in section a, Diagram 18. The numerators are added and likewise the denominators. This is perhaps the mistake that would be expected, and it should therefore be very carefully guarded against by the teacher. It shows, however, that the child does not have the least conception of the meaning of denominator. TABLE XXVTII Frequency Of Types Of Error In Addition Of Fractions Of Like Denominators--Eighth Grade Another frequent error is that shown in section b of the diagram; the numerators are multiplied and likewise the denominators. This indicates an interference of mental functions. Since the pupil 3, J 4 5 5 10, i27 IS 6...
