# CATALYSIS FOR THE CONVERSION OF BIOMASS AND ITS DERIVATIVES

Epubli. Taschenbuch. Book Condition: Neu. 210x148x28 mm. Neuware - Biomass will play an important role in the future for the replacement of fossil sources for fuels and chemicals. Catalytic processes are required for the efficient conversion of biomass. The development of such processes and the understanding of the catalytic reactions of biomass molecules has recently attracted considerable and increasing attention. In this book, thirteen experts in different fields deliver their views on the state-of-the-art and future development of the use...
