In addition there will be given the biographical examples of self-made men that became a pattern for all the successors in American history. Furthermore I would like to make an overview of the various aspects of self-made man philosophy, which includes the discussion of its positive and negative sides and its influences on personality and society in general. Finally I will debate the ways of realisation of the self-made man idea nowadays and weigh the existing perspectives in the individualistic and contradictory world of now. 32 pp. Englisch.
