SCIENCE MYTHS WE TELL OURSELVES (HARDBACK)

Outskirts Press, United States, 2015. Hardback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.The author debunks many science concepts like the Big Bang, Instant Creation, Continental Drift, and Spreading Sea Floors, which are shown to be really just myths. A Big Bang explosion would require an escape velocity for galaxies of 1,000,000,000,000,000,000,000,000 times the speed of light. But more damaging to mankind is the myth that energy cannot be created...

Reviews

This publication can be well worth a study, and far better than other. Better then never, though i am quite late in start reading this one. Its been printed in an exceedingly simple way and it is only soon after i finished reading through this book in which really transformed me, alter the way in my opinion.

-- **Miss Alisa Toy**

This is the very best ebook i have got study until now. This is for those who statte there had not been a worth reading. You can expect to like the way the writer write this book.

-- **Jeffrey Ritchie**

Absolutely among the best publication I have at any time go through. It is definitely basic but shocks from the 50 % of the book. I discovered this book from my i and dad advised this publication to find out.
