Dimensions: 9.0in. x 6.0in. x 0.5in.Quiet was the default setting in the teachers lounge, and quiet was nice, but a new and different kind of quiet had taken hold in the weeks since school began. This quiet was not an absence of conversation, but a conspiracy of silence. The distinction wasnt lost on Bixbys veteran teachers who knew the difference. Something was lurking beneath the surface that nobody seemed willing to talk about, though some were less afraid than others. Kids are disappearing at Bixby Elementary, and no one knows why. But thats only the second strangest thing happening inside the school. Whos responsible Thats just what Drew and the rest of the Zero Avenue brats want to know, but are they ready for what theyll find Because finding out means unraveling the threads of a conspiracy that blurs the line between myth and science, and between friends and enemies. Because finding out draws them into an adventure that tests their character, and their loyalties to each other. Seeing Harley selected for the Vice-Principals Special Studies program triggers Drews suspicions--and his jealousy. Digging deeper, he traces the programs tangled roots to clandestine research carried out during WWII. Driven by their sense of loyalty, Drew and the rest of the brats follow the programs long shadow from the wars twilight, to the present day and the abandoned amusement park where their fight for the future might just heal their wounded past.
